Re: Request for Area Source Boiler MACT Compliance Date Extension
Air Quality TVOP-11-00378
Colver Power Plant
Cambria Township, Cambria County

Dear Mr. Malloy:

This letter is to notify you that the Pennsylvania Department of Environmental Protection (DEP) has reviewed your April 7, 2014 compliance extension request for the Colver Power Plant related to the requirements under the Mercury and Air Toxics Standard (40 CFR Part 63 Subpart UUUUU), also known as MATS.

Inter-Power/AhlCon Partners L.P. has requested a one year extension of compliance to April 16, 2016 in order to comply with MATS by increasing pulverized limestone injection into the circulating fluidized bed unit for SO₂ removal.

Inter-Power/AhlCon Partners L.P.'s extension request to comply with the MATS requirements until April 16, 2016 for the Colver Power Plant is approved by DEP based upon the information identified in your April 16, 2014 letter. If Inter-Power/AhlCon Partners L.P. is unable to meet the timeline identified in the April 16, 2014 letter, you should provide written notice to DEP as soon as possible but no later than five (5) business days after becoming aware of the delays. This notice must explain the delay and propose a revised compliance schedule in order to meet the April 16, 2016 MATS extension date. If Inter-Power/AhlCon Partners L.P. wishes to request an extension of MATS compliance beyond April 16, 2016, that request must be sent to the administrator of the U.S. Environmental Protection Agency.

If you have questions regarding this matter, please do not hesitate to contact me at 412.442.4161.

Sincerely,

Mark A. Wayner, P.E.
Regional Manager
